ArborSide Compassion Partners with Mission A2

For the second year in a row ArborSide Compassion is partnering with Mission A2 to host a coat drive for the local warming shelter.

Last year our patients donated over 100 coats, hats, and pairs of gloves to the cause. We are looking for gently used winter jackets, coats, hats, and gloves/mittens. For each donation patients will earn reward points on their account.

Coats/jackets = 100 points each
Hats/gloves = 50 points each

Patients are encouraged to donate as much as possible. The maximum points allotment per visit is 200 reward points per patient per visit. Patients can make multiple donations. The link below provides further details on the organization these donations will benefit.

Mission A2

DAYTIME WARMING CENTER

2019 | 2020

This year we are looking to continue our past years of building bridges between the homeless and homeful communities with more active participation from those experiencing homelessness & housing insecurity.

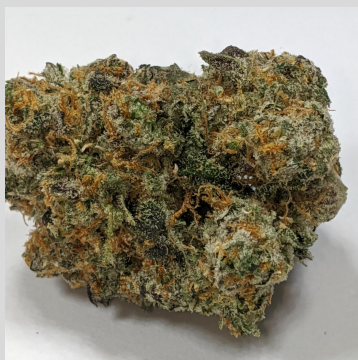

We will be creating teams of folks to take leadership in keeping people safe and in the space, managing donations, cooking and kitchen support, planning activities, and keeping the space clean and organized

As always we need your voice to make this work so keep looking for updates on Facebook about training and information sessions. Looking forward to see everyone again soon

WE ARE COMING BACK DECEMBER 2ND 2019

Loud Organics Premium Distillate Cartridges:
95% total cannabinoids (10% CBD). Made with cannabis derived terpenes. A great cartridge option for daytime stress and pain management.

"Aeuphoric, calming, and pain relieving experience. The Loud Organics Black Lime Reserve cartridge tastes smooth and slightly sweet like blackberry kush. After a couple puffs I was calm, my headache was gone, and I was motivated for my day. A tasty and effective indica hybrid cartridge."
-Layla H.

"Ice Cream Cake is not only tasty, and beautiful in appearance, but packs a punch as well. The sweet, fruity, and yet creamy taste attributes nicely with

"The Flavor of the Now & Later Sauce is sweet, with hints of fruit on the back of the tongue. The flavor is more mild than the aroma, but very similar. It gave me body pain relief, a head buzz, and relaxation. The flavor profile, and aesthetic appeal are bar none." - Travis F.

the potency, creating well rounded effects that last a while. This strain will put you back in your seat with the intense muscle relaxation, and calmness that articulate with smoking this flower. Beyond the potency, and terpene content being spot on, the overall smoothness of this Ice Cream Cake make it one of the best strains I've had in quite a minute." - Travis F.
